21st Munich Heart Alliance Meeting

Monday, 18.07.2022

Technische Universität München

HelmholtzZentrum münchen
Deutsches Forschungszentrum für Gesundheit und Umwelt

■ Program

10.15 Christian Weber
(Institute for Cardiovascular Prevention, LMU)
Opening remarks (Kaminzimmer)

Young MHA Session

(Kaminzimmer)

10.30 Daniel Andergassen
(Institute of Pharmacology and Toxicology, TUM)
Uncovering the missing X factors to understand sex bias in cardiovascular disease

10.50 Rainer Kaiser (Department of Cardiology, LMU)
Procoagulant platelets prevent bleeding in inflammation

11.10 Susanne Rospleszcz (Institute of Epidemiology, HMGU)
A process-oriented model of atherosclerosis development and myocardial infarction incidence

11.30 Alexander Dutsch (Department of Cardiology, DHM)
Association of in-hospital hemoglobin drop with decreased myocardial salvage and increased long-term mortality in patients with acute ST-segment elevation myocardial infarction

Lunch Break (Herrenzimmer, Spiegelzimmer, Terrasse)
(11:50 - 12:50)

Preclinical Session

(Kaminzimmer)

12.50 Lars Mägdefessel
(Vascular and Endovascular Surgery, MRI)
Targeting lncRNAs to stabilize vulnerable atherosclerotic lesions

13.10 Sabine Steffens
(Institute for Cardiovascular Prevention, LMU)
Antagonizing peripheral CB1 receptors prevents atheroprotection and limits metabolic dysfunction

13.30 Tobias Petzold
(Department of Cardiology, LMU)
Neutrophil plucking drives platelet production and cardiovascular disease

13.50 Angelos Karlas
(Institute of Biological and Medical Imaging, HMGU and MRI; Vascular and Endovascular Surgery, MRI)
Microvascular optoacoustics opens a window to cardiometabolic disease

Poster Session

 (Grünes Zimmer)

14.10 Poster Session (incl. coffee)

Clinical Session

(Kaminzimmer)

15.40 Fabian Starnecker (Department of Cardiology, DHM)
HerzFit: Generation of a Health App

16.00 Wolfgang Koenig (Department of Cardiology, DHM)
CVD risk prediction: a role for plasma protein profiling?

16.20 Ulrich Grabmaier (Department of Cardiology, LMU)
The TRINITY trial - how to create awareness for an unnoticed disease

16.40 Jörg Hausleiter (Department of Cardiology, LMU)
Percutaneous intervention in tricuspid valve regurgitation

Keynote Lecture

17.15 Christian Haass
(Biomedical Center Munich - Metabolic Biochemistry, LMU)
Microglial modulation in Alzheimer's disease - innovative therapies or devilish gambling?

Dinner
